ABOUT AOLEAO

One-Stop Service for Design, Manufacturing, Shipping and Installation Guidance

- We offer a "one-stop" service, covering design, manufacturing transportation, and installation guidance. Our product range includes indoor and outdoor playground equipment, trampoline parks, and other play equipment.

- The company adheres to a code of conduct that ensures professionalism, enthusiasm, and honesty to our clients. We provide a 24 hour online service dedicated to providing our clients with high-quality products. Our current production range covers 10 series production lines with thousands of creative designs and drawings.

- Over the last few years our company has thoroughly researched and invented new technology to improve our production line. We have incorporated products that combine beauty and creativity with functionality. We take pride in the combination of our domestic and foreign style. Our company ensures a child-friendly and safe playground as we adhere to CE, ISO, TUV, ASTM and other safety standards, which is why we have earned client confidence nationally and internationally in the playground industry.

Flame-Retardant Board

High-Density Sponge

Shackles & Turnbuckles

Flanges & Clamps

SAFETY YOU CAN TRUST

All facilities in this children's playground strictly adhere to safety standards. The core materials have passed testing by authoritative organizations such as SGS and TUV, and meet EN1176 safety standards and ISO quality system requirements.

From the soft padding to the load-bearing climbing structure, we use food-grade environmentally friendly PE materials and highly elastic flame-retardant sponge. These materials are non-toxic, odorless, tear-resistant, and abrasion-resistant, helping to eliminate harmful substances such as formaldehyde and heavy metals. Rounded edges and corners further reduce collision injuries, creating a safe and worry-free play environment that supports unrestricted play and healthy growth.

- **TESTED & CERTIFIED** by SGS and TUV
- **EN1176 COMPLIANT** International playground safety standard
- **ISO QUALITY SYSTEM** Consistent quality management
- **SAFE & DURABLE** Non-toxic, eco-friendly, built to last

SGS Tested | TUV Tested | EN1176 Compliant | ISO Quality System

PRODUCTION CAPABILITIES

Our production workshop employs over 50 people and focuses on four main areas: plastics, metals, soft play equipment, and packaging. We are dedicated to the research, development, production, and sales of children's playground equipment, with a global reach. Our goal is to build partnerships with our clients providing them with efficient and professional "one-stop" service.

Play More, Smile More!

AREA: **365** sqm

CORE ITEMS:

Features winding slides, climbing frameworks, sports courts, sponge pits, interactive game stations, and obstacle courses—all integrated in a sprawling, kid-friendly setup.

Products Introduction:

This 365-square-meter indoor playground is designed as a family-friendly leisure destination that blends imaginative play, active movement, and social interaction.

The layout integrates a signature slide area, soft play structures, a ball pit, role-play corners, ride-on paths, interactive gaming spaces, and a parent lounge, all set within a welcoming environment featuring soft pink tones.

The result is an engaging, safe, and highly interactive play environment that encourages exploration, creativity, and shared family experiences.

01 SLIDE ADVENTURE

Winding slides and a colorful sponge & ball pit bring endless excitement.

02 RIDE & EXPLORE

Ride-on paths and merry-go-round create a fun journey for little drivers.

03 ROLE-PLAY WORLD

Pretend play corners inspire creativity and social interaction.

04 INTERACTIVE PLAY

Game stations and activity zones spark curiosity and hands-on fun.

SAFE & DURABLE
High-quality materials ensure safety and long-lasting use.

SOFT PASTEL DESIGN
Calming colors create a warm, welcoming atmosphere.

FAMILY COMFORT
Spacious seating areas let parents relax and connect.

ENDLESS FUN
Diverse play zones for active, creative, and social play.

Give Children More Laughter

GUANGZHOU AOLEAO SPORTS CULTURE CO., LTD.

GAME EQUIPMENT SUPPLIER

F.A.Q.

Why choose Aoleao?

Aoleao is the Turnkey solution manufacturer and provider for all your playground and family entertainment center needs. We are experts in the 3D design, configuration, theming and installation of commercial grade indoor playgrounds for kids and adults. Our project managers will walk you through the process from design to installation and final delivery. We incorporate advanced technology while complying with the strictest global industry standards under EN, ASTM, and others, to deliver the safest and most exciting entertainment experiences. Our designs are versatile, compatible with any commercial applications, and suitable for all ages while being affordable. With our experience and expertise in this industry will ensure your success.

What safety standards does Aoleao meet?

Aoleao maintains a proactive and rigorous approach to ensure our equipment and play units meet and exceed all North American and European indoor playground systems standards, including TUV,SGS, ASTM, CPSIA, EN1176, and CE. As a result, we are fully qualified and prepared to analyze local requirements and standards to ensure your specific play system satisfies them in
different regions and countries.

What kind of venue would needed?

We require a suitable open space for indoor playgrounds and trampoline parks to accommodate the size and complexity of your desired play system. However, depending on the location and available space, we can also plan and design for existing rooms and mezzanines to be integrated into a more expansive facility. in addition, a concrete slab floor will be necessary to build any play system. Having some natural lighting is always a plus.

Is it difficult to install? Do you have installation manual? Or; do you send your own workers over to help install the Indoor Playground? What's the cost?

The installation manual will be sent after the indoor Playground is produce completed. So you can do installation by our guidance, But if playground bigger than 150m2, we strongly suggest let's our installer take care for you.
The installation cost will be stated clearly in our sales contract.

aoleao
Give Children More Laughter

What to do if there is a quality problem of equipment?

During guarantee time, we will provide after-sales service. In addtition, We will send additional news accessories for future use, and we will send new parts in the earliest time for your broken parts.

What maintenance does the equipment require?

Indoor playground sets require regular care and maintenance, Spills need immediate cleanup to protect other kids in the play area from slipping and falling. Health is also important to keep in mind when kids use playground equipment. Regularly cleaning indoor equipment with soap and water and sanitizing products can protect the health of kids who use it and promote a cleaner, longer-lasting play structure.

What will do, if the playground is not attractive after a long time?

Therefore, when choosing indoor play area equiptment, investor will consider covering different age group. Standing from children sight, investors selects popular and safe games. Without games to current business, investors can add some new games to attract children.

What warranties are available?

Aoleao Amusement has a one-year warranty that covers workmanship and product defects. Learn more about the specifics of the warranty by talking to our project managers.
